UNISEX SALON & WELLNESS

Organization Structure

Super Admin — Org → Branch Hierarchy & Seed Data

Version 1.1 | **Date** July 12, 2026 | **Confidential**

© 2026 GlowTap

1. Platform Hierarchy Overview

GlowTap is structured in three layers:

Layer	Entity	Managed by
Platform	**GlowTap**	Super Admin
Business	**Organization (Org)**	Salon owner at subscription signup
Location	**Branch**	Salon Admin per outlet

A salon owner subscribes and creates one **Organization** (legal/business entity). Each org can operate **multiple branches** — separate physical salon locations under the same brand (e.g. Looks Salon & Spa with outlets in Andheri, Bandra, and Powai).

```
GlowTap Platform
└── Super Admin (1 platform operator)
    └── Organizations (onboarded salon businesses)
        └── Branches (physical salon locations)
```

Key rule: Branch creation is initiated by the **Salon Admin**, but every new branch stays in `PENDING` until the **Super Admin approves** it. Only `ACTIVE` branches appear to end users for booking.

2. Entity Relationship

```
erDiagram
    ORGANIZATIONS ||--|| SUBSCRIPTION_PLANS : subscribes
    SUPER_ADMIN_USERS ||--o{ ORGANIZATIONS : approves
    SUPER_ADMIN_USERS ||--o{ BRANCHES : approves
    ORGANIZATIONS ||--|{ BRANCHES : operates

    SUPER_ADMIN_USERS {
        uuid id PK
        string full_name
        string email
        string role
        string status
    }

    ORGANIZATIONS {
        uuid id PK
        string name
        string slug
        string status
        uuid subscription_plan_id FK
        string state_code
        string kyc_status
        boolean is_agreement_signed
        decimal commission_pct
    }

    SUBSCRIPTION_PLANS {
        uuid id PK
        string name
        string description
        int max_branches
    }

    BRANCHES {
        uuid id PK
        uuid organization_id FK
        string name
        string status
        boolean is_primary
        string branch_state_code
        string kyc_status
        boolean is_agreement_signed
    }
```

3. Super Admin

There is **exactly one** Super Admin account in the current seed — the GlowTap platform operator who approves salons and branches.

3.1 Table: `super_admin_users`

Column	Type	Description
`id`	UUID	Primary key
`full_name`	VARCHAR	Display name
`email`	VARCHAR	Login email (unique)
`phone`	VARCHAR	Contact number
`role`	ENUM	`SUPER_ADMIN`, `READ_ONLY`, `OPS_AGENT`
`status`	ENUM	`ACTIVE`, `INACTIVE`
`mfa_enabled`	BOOLEAN	Multi-factor authentication flag
`last_login_at`	TIMESTAMPTZ	Last successful login

3.2 Seeded Super Admin

Field	Value
Name	Arjun Nair
Email	admin@glowtap.com
Phone	+91 98765 43210
Role	SUPER_ADMIN
ID	`a1000000-0000-4000-8000-000000000001`

---

4. Organization (Salon Business)

An **Organization** is the legal and commercial entity behind a salon brand. Think of **Looks Salon & Spa** as a brand — not a single shop, but the company that may own outlets in Andheri, Bandra, and Powai.

4.1 Lifecycle

```
Subscription signup → PENDING (Salon Approvals queue)
    → Super Admin approves → ACTIVE
    → Super Admin suspends → SUSPENDED
    → Super Admin terminates → TERMINATED
```

On **first approval**, the primary branch is auto-activated and a Salon Admin account is created (future module).

4.2 Table: `organizations`

Column	Type	Description
`id`	UUID	Primary key
`name`	VARCHAR	Brand name shown in app (e.g. "Looks Salon & Spa")
`slug`	VARCHAR	URL-safe unique identifier
`legal_name`	VARCHAR	Registered company name for invoicing/KYC
`owner_name`	VARCHAR	Salon proprietor
`owner_email`	VARCHAR	Primary contact; Salon Admin credentials sent here
`owner_phone`	VARCHAR	Owner mobile
`gst_number`	VARCHAR	GSTIN for Indian tax compliance
`pan_number`	VARCHAR	PAN for KYC
`logo_url`	TEXT	Brand logo (optional)
`kyc_document_url`	TEXT	S3 URL — owner ID / business KYC document
`gst_certificate_url`	TEXT	S3 URL — GST registration certificate
`photo_url`	TEXT	S3 URL — org cover / brand photo
`registered_address`	JSONB	HQ / registered office address
`city` , `state` , `pincode`	VARCHAR	Denormalized for filtering & reports
`state_code`	VARCHAR(2)	GST state code (e.g. `27` Maharashtra)
`country`	VARCHAR	Default `India`
`business_type`	ENUM	`SOLE_PROPRIETOR` , `PARTNERSHIP` , `LLP` , `PRIVATE_LIMITED` , etc.
`cin`	VARCHAR	Company Identification Number (companies only)
`udyam_msme_number`	VARCHAR	MSME/Udyam registration
`gst_registration_type`	ENUM	`REGULAR` , `COMPOSITION` , `UNREGISTERED`
`kyc_status`	ENUM	`NOT_SUBMITTED` , `PENDING` , `VERIFIED` , `REJECTED`
`kyc_verified_at`	TIMESTAMPTZ	When KYC was verified
`kyc_verified_by`	UUID	FK → `super_admin_users`

© 2026 GlowTap

Confidential

`signed_agreement_url`	TEXT	S3 URL — signed GlowTap agreement
`is_agreement_signed`	BOOLEAN	Agreement signed flag
`status`	ENUM	`PENDING`, `ACTIVE`, `SUSPENDED`, `TERMINATED`
`subscription_plan_id`	UUID	FK → `subscription_plans`
`commission_pct`	DECIMAL	GlowTap commission on end-user payments
`onboarded_at`	TIMESTAMPTZ	When org went live
`approved_at`	TIMESTAMPTZ	Super Admin approval timestamp
`approved_by`	UUID	FK → `super_admin_users`

4.3 Compliance & documents (organization)

Documents are stored in **AWS S3**; the database holds URL references only.

Column	Document
`kyc_document_url`	Owner ID / business KYC (PDF)
`gst_certificate_url`	GST registration certificate
`photo_url`	Org cover / brand photo
`logo_url`	Brand logo (app listing)
`signed_agreement_url`	Signed GlowTap platform agreement

© 2026 GlowTap

Confidential

Column	Compliance field
`business_type`	Legal entity: `SOLE_PROPRIETOR`, `PARTNERSHIP`, `LLP`, `PRIVATE_LIMITED`, `PUBLIC_LIMITED`, `OTHER`
`cin`	Company Identification Number (companies only)
`udyam_msme_number`	MSME/Udyam registration
`gst_registration_type`	`REGULAR`, `COMPOSITION`, `UNREGISTERED`
`state_code`	GST state code (2-digit, e.g. `27` = Maharashtra)
`kyc_status`	`NOT_SUBMITTED` → `PENDING` → `VERIFIED` or `REJECTED`
`kyc_verified_at` / `kyc_verified_by`	Super Admin verification audit
`is_agreement_signed`	`TRUE` when platform agreement is signed

KYC workflow (org):

```
Signup uploads docs → kyc_status = PENDING
    → Super Admin reviews in Salon Approvals
    → VERIFIED (org can be approved) or REJECTED
```

4.4 Address JSON shape (`registered_address`)

```
{
  "line1": "402, Oberoi Commerz II",
  "line2": "Goregaon East",
  "landmark": "Near Oberoi Mall",
  "city": "Mumbai",
  "state": "Maharashtra",
  "pincode": "400063",
  "country": "India"
}
```

5. Branch (Physical Salon Location)

A **Branch** is one bookable salon outlet under an organization — where customers discover services, check hours, and place bookings.

5.1 Lifecycle

```
Salon Admin submits branch → PENDING (Branch Approvals queue)
    → Super Admin approves → ACTIVE (visible to customers)
    → Super Admin rejects → REJECTED
    → Salon Admin deactivates → INACTIVE
```

Plan limit check: If `active_branch_count >= subscription_plans.max_branches`, the request is flagged for upgrade before approval.

Confidential

5.2 Table: `branches`

Column	Type	Description
`id`	UUID	Primary key
`organization_id`	UUID	FK → parent org
`name`	VARCHAR	Outlet name (e.g. "Looks — Andheri West")
`slug`	VARCHAR	Unique within org
`address`	JSONB	Full outlet address with landmark
`contact_phone`	VARCHAR	Branch reception number
`contact_email`	VARCHAR	Branch inbox
`operating_hours`	JSONB	Day-wise open/close or `closed`
`latitude`, `longitude`	DECIMAL	Map pin for discovery
`status`	ENUM	`PENDING`, `ACTIVE`, `INACTIVE`, `REJECTED`
`is_primary`	BOOLEAN	First branch created at org onboarding
`kyc_document_url`	TEXT	S3 URL — shop license / local KYC
`gst_certificate_url`	TEXT	S3 URL — branch GST certificate (if separate)
`photo_url`	TEXT	S3 URL — branch storefront photo
`branch_state_code`	VARCHAR(2)	GST state code for branch location
`shop_establishment_license_url`	TEXT	S3 URL — Shop & Establishment license
`trade_license_url`	TEXT	S3 URL — municipal trade license
`branch_gst_number`	VARCHAR	Separate GSTIN if branch differs from org
`kyc_status`	ENUM	`NOT_SUBMITTED`, `PENDING`, `VERIFIED`, `REJECTED`
`kyc_verified_at`	TIMESTAMPTZ	When branch KYC was verified
`kyc_verified_by`	UUID	FK → `super_admin_users`
`signed_agreement_url`	TEXT	S3 URL — signed branch agreement
`is_agreement_signed`	BOOLEAN	Agreement signed flag
`approved_at`	TIMESTAMPTZ	When branch went live

© 2026 GlowTap

Confidential

`approved_by`	UUID	FK → `super_admin_users`

5.3 Compliance & documents (branch)

Column	Document
`kyc_document_url`	Shop license / local KYC
`gst_certificate_url`	Branch GST certificate
`photo_url`	Storefront photo
`shop_establishment_license_url`	Shop & Establishment Act license
`trade_license_url`	Municipal trade license
`signed_agreement_url`	Signed branch-level agreement

Column	Compliance field
`branch_state_code`	GST state code for branch location (may differ from org HQ)
`branch_gst_number`	Separate GSTIN if branch operates under different registration (nullable)
`kyc_status`	Same enum as org — verified before branch goes `ACTIVE`
`kyc_verified_at` / `kyc_verified_by`	Super Admin verification audit
`is_agreement_signed`	`TRUE` when branch agreement is signed

Note: `organizations.state_code` is the org HQ GST code. `branches.branch_state_code` is the outlet location code — they may differ for multi-state chains.

5.4 Primary branch (`is_primary`)

Rule	Detail
Set at onboarding	First branch submitted with org signup → `is_primary = TRUE`
Additional branches	Always `is_primary = FALSE`
Constraint	**One primary per org** — partial unique index `idx_one_primary_branch_per_org`
Purpose	Default Salon Admin context, signup anchor, reporting

5.5 Operating hours JSON shape

```
{
  "mon": { "open": "10:00", "close": "21:00" },
  "tue": { "open": "10:00", "close": "21:00" },
  "sun": { "closed": true }
}
```

6. Subscription Plans

6.1 Table: `subscription_plans`

Column	Type	Description
`id`	UUID	Primary key
`name`	VARCHAR	Plan display name (e.g. "Growth")
`description`	TEXT	Plan summary for Super Admin / signup UI
`max_branches`	INT	Branch cap (999 = unlimited)

6.2 Seeded plans

Plan	Max branches	Example org
Starter	1	Enrich Salon
Growth	3	Looks Salon & Spa
Professional	10	Glamour Zone
Enterprise	999 (unlimited)	Naturals Salon Partners

Branch limits are read via join: `organizations.subscription_plan_id → subscription_plans.max_branches`.

6.3 GST state codes (seeded)

State	Code	Used by (seed)
Maharashtra	`27`	Looks Salon & Spa, Blush & Bloom
Delhi	`07`	Glamour Zone
Karnataka	`29`	Enrich Salon
Tamil Nadu	`33`	Naturals Salon Partners

7. Seeded Dummy Data Summary

7.1 Organizations (5 total)

Org	City	Status	Plan	Branches	Commission
Looks Salon & Spa	Mumbai	ACTIVE	Growth	3 (2 live, 1 pending)	8.00%
Glamour Zone	New Delhi	ACTIVE	Professional	2 (1 live, 1 pending)	6.50%
Enrich Salon	Bengaluru	ACTIVE	Starter	1 (at plan limit)	10.00%
Naturals Salon Partners	Chennai	ACTIVE	Enterprise	4 (3 live, 1 pending)	5.00%
Blush & Bloom	Pune	**PENDING**	Growth	1 (awaiting org approval)	5.00%

Confidential

7.2 Branch inventory (11 total)

Branch	Org	City / Area	Status	Primary
Looks — Andheri West	Looks	Mumbai	ACTIVE	Yes
Looks — Bandra	Looks	Mumbai	ACTIVE	No
Looks — Powai	Looks	Mumbai	**PENDING**	No
Glamour Zone — Connaught Place	Glamour Zone	Delhi	ACTIVE	Yes
Glamour Zone — Saket	Glamour Zone	Delhi	**PENDING**	No
Enrich — Koramangala	Enrich	Bengaluru	ACTIVE	Yes
Naturals — T Nagar	Naturals	Chennai	ACTIVE	Yes
Naturals — Anna Nagar	Naturals	Chennai	ACTIVE	No
Naturals — Adyar	Naturals	Chennai	ACTIVE	No
Naturals — OMR Sholinganallur	Naturals	Chennai	**PENDING**	No
Blush & Bloom — Viman Nagar	Blush & Bloom	Pune	**PENDING**	Yes

7.3 Compliance seed summary

Org	Business type	GST type	State	KYC	Agreement
Looks Salon & Spa	PRIVATE_LIMITED	REGULAR	27	VERIFIED	Signed
Glamour Zone	LLP	REGULAR	07	VERIFIED	Signed
Enrich Salon	SOLE_PROPRIETOR	REGULAR	29	VERIFIED	Signed
Naturals Salon Partners	PRIVATE_LIMITED	REGULAR	33	VERIFIED	Signed
Blush & Bloom	SOLE_PROPRIETOR	UNREGISTERED	27	PENDING	Not signed

Active branches: KYC `VERIFIED`, agreement signed, license URLs populated.
Pending branches: KYC `PENDING`, agreement not signed.

7.4 Super Admin approval queues (demo state)

Queue	Count	Examples
Salon Approvals	1	Blush & Bloom (new subscription lead)
Branch Approvals	3	Looks Powai, Glamour Zone Saket, Naturals OMR

8. S3 document path conventions (dummy seed)

Bucket: `glowtap-assets.s3.ap-southeast-1.amazonaws.com`

Organization:

```
/orgs/{org-slug}/kyc/owner-id.pdf
/orgs/{org-slug}/gst/gst-certificate.pdf
/orgs/{org-slug}/photos/org-cover.jpg
/orgs/{org-slug}/agreements/signed-agreement.pdf
```

Branch:

```
/orgs/{org-slug}/branches/{branch-slug}/kyc/shop-license.pdf
/orgs/{org-slug}/branches/{branch-slug}/gst/gst-certificate.pdf
/orgs/{org-slug}/branches/{branch-slug}/photos/storefront.jpg
/orgs/{org-slug}/branches/{branch-slug}/licenses/shop-establishment.pdf
/orgs/{org-slug}/branches/{branch-slug}/licenses/trade-license.pdf
/orgs/{org-slug}/branches/{branch-slug}/agreements/signed-agreement.pdf
```

9. Worked Example — Multi-Location Salon

Organization: *Looks Salon & Spa* represents the salon brand and business account.

Branches under that org are individual outlets end users can book:

- *Looks — Andheri West* — `ACTIVE`, bookable today (primary location)
- *Looks — Bandra* — `ACTIVE`, bookable today
- *Looks — Powai* — `PENDING`, submitted by Salon Admin, awaiting Super Admin approval (**not bookable yet**)

The Super Admin portal shows org-level metrics (total branches, commission %, plan) and drills into each branch with full address, hours, and approval status.

10. Database & tooling

Item	Path / command
Neon database	`superAdmin`
SQL migrations	`SchemaMaking/superAdmin/migrations/`
Drizzle schema	`SchemaMaking/superAdmin/db/schema.js`
Reference SQL	`SchemaMaking/superAdmin/db/*.reference.sql`
Connection	`SchemaMaking/superAdmin/connection.js`
Apply migrations	`npm run db:migrate`
Check DB state	`npm run db:status`
Browse data	`npm run db:studio` (Drizzle Studio)

Migration history

File	Purpose
`001_org_hierarchy.sql`	Core tables + indexes
`002_seed_dummy_data.sql`	Super Admin, plans, orgs, branches
`003_one_primary_branch_per_org.sql`	Unique primary branch per org
`004` – `006`	Removed `services_offered` column
`007_drop_seats_capacity.sql`	Removed `seats_capacity`
`008_subscription_plans.sql`	Plans table + `subscription_plan_id` FK
`009_kyc_gst_photo_urls.sql`	Document URL columns
`010_compliance_fields.sql`	KYC, agreements, licenses, business identity
`011_rename_branch_state_code.sql`	Renamed `state_code` → `branch_state_code` on branches

11. Next Steps (Future Docs)

This document covers **Phase 1 hierarchy + compliance documents**. Subsequent solution docs will add:

- `organization_subscriptions` (billing lifecycle)

© 2026 GlowTap

Confidential

- `organization_bank_accounts` (payout settlement)
- Salon Admin & end-user accounts
- Services catalog & `branch_services`
- Transactions & commission ledger
- DPDP consent & data deletion workflows
- REST API contracts for org/branch CRUD and approval workflows
