GlowTap Super Admin Portal

Figma Screen Inventory & Step-by-Step Design Guide

Version: 1.4
Date: June 27, 2026
Purpose: Screens to design in Figma for Super Admin — **only what is defined in the Functional Specification v1.1**.

Source: Super-Admin-Functional-Spec.md v1.1

1. Screen Count Summary

Counting rules:

- **Page** = navigable screen defined in the functional spec
- **Modal** = overlay for an action defined in the functional spec (not a page)
- **Layout** = app shell (design once, **not a page**)
- **Component** = reusable pattern (empty state, confirm dialog) — not counted as pages

Category	Pages	Modals	Layout	Figma Frames	Complexity
Auth	1	0	0	1	Low
App Shell	—	—	1	1	Low
Dashboard	1	0	0	1	Medium
Salon Approvals	2	3	0	5	Medium
Branch Approvals	2	2	0	4	Medium
All Salons	2	6	0	8	High
Transactions	2	1	0	3	Low
Subscription Management	5	0	0	5	Medium
Reports	3	2	0	5	Medium
User Access Control	6	2	0	8	Medium
CMS & Banners	**7**	**0**	**0**	**7**	**High**
Platform Analytics	1	0	0	1	High
Support & Ticketing	2	1	0	3	Medium
Master Configuration	**7**	**0**	**0**	**7**	**High**
Audit Log	1	0	0	1	Low
TOTAL (in scope)	**42**	**17**	**1**	**~60**	

Summary:

- **42 pages** (functional spec only)
- **17 modals**
- **1 app shell** (layout — not a page)
- **~60 Figma frames**

---

2. Excluded — Not in Functional Spec v1.1

Do **not** design these unless added to a future functional spec version:

Removed ID	Was	Why excluded
AUTH-02	MFA Verification page	Spec only says "optional MFA" — no TOTP/backup flow defined
AUTH-03	Forgot Password	Not mentioned in functional spec
AUTH-04	Reset Password	Not mentioned in functional spec
BNR-03	Banner Preview (separate page)	No separate banner preview screen; use preview on BNR-02 edit
GLB-02	Error / 404 page	Not in functional spec
GLB-M01	Generic Confirm Dialog	Reusable component only — not a separate deliverable

---

3. Complexity Legend

Level	Meaning
Low	List or simple form
Medium	Filters, tabs, tables, multi-step actions
High	Rich editors, rule builders, matrices, many conditional states

---

4. Complete Screen Inventory (Functional Spec Only)

4.1 Auth (1 page) + App Shell (1 layout)

ID	Screen Name	Type	Functional reference
AUTH-01	Login	Page	§2 — email/password login
SHELL-01	App Shell	Layout	§3 — 13 menu items + header

> MFA, forgot password, and reset password are **not** in scope until added to functional spec.

4.2 Dashboard (1 page)

ID	Screen Name	Type	Functional reference
DASH-01	Dashboard Home	Page	§4.1 — pending actions, KPIs, alerts, quick actions

4.3 Salon Approvals (2 pages + 3 modals)

ID	Screen Name	Type	Functional reference
SAL-01	Salon Lead List	Page	§4.2 — filters, status
SAL-02	Salon Lead Review	Page	§4.2 — review details, commission %, KYC docs
SAL-M01	Approve Lead Modal	Modal	§4.2 — Approve + commission
SAL-M02	Reject Lead Modal	Modal	§4.2 — Reject + reason
SAL-M03	Request More Info Modal	Modal	§4.2 — Awaiting Documents

4.4 Branch Approvals (2 pages + 2 modals)

ID	Screen Name	Type	Functional reference
BRN-01	Branch Request List	Page	§4.3
BRN-02	Branch Request Review	Page	§4.3 — upgrade required state
BRN-M01	Approve Branch Modal	Modal	§4.3 — Approve
BRN-M02	Reject Branch Modal	Modal	§4.3 — Reject + reason

4.5 All Salons (2 pages + 6 modals)

ID	Screen Name	Type	Functional reference
ORG-01	All Salons List	Page	§4.4 — list view
ORG-02	Salon Detail	Page	§4.4 — Profile + Earnings tabs on one screen
ORG-M01	Suspend Salon Modal	Modal	§4.4 — Suspend + reason
ORG-M02	Resume Salon Modal	Modal	§4.4 — Resume
ORG-M03	Terminate Salon Modal	Modal	§4.4 — Terminate + reason
ORG-M04	Edit Commission Modal	Modal	§4.4 — commission edit + confirmation
ORG-M05	Change Plan Modal	Modal	§4.4 — manual subscription plan change
ORG-M06	Apply Discount Modal	Modal	§4.4 — RC / NRC discount

ORG-02 tabs (one page, two tab panels):

- **Profile** — business profile, owner, subscription, branches, status, manual subscription actions

- **Earnings** — subscription + commission revenue, breakdown, date filter, export

---

4.6 Transactions (2 pages + 1 modal)

ID	Screen Name	Type	Functional reference
TXN-01	End-User Transaction List	Page	§4.5
TXN-02	Transaction Detail	Page	§4.5 — view detail
TXN-M01	Flag for Dispute Modal	Modal	§4.5 — flag + link to ticketing

---

4.7 Subscription Management (5 pages)

ID	Screen Name	Type	Functional reference
SUB-01	Plan Overview	Page	§4.6.1
SUB-02	Plans List	Page	§4.6.2
SUB-03	Create / Edit Plan	Page	§4.6.2 — incl. contract discounts
SUB-04	Subscription Transactions List	Page	§4.6.3
SUB-05	Subscription Transaction Detail	Page	§4.6.3 — invoice / payment detail

---

4.8 Reports (3 pages + 2 modals)

ID	Screen Name	Type	Functional reference
RPT-01	Reports Index	Page	§4.7 — entry to all reports
RPT-02	Report View (Template)	Page	§4.7.2 — shared layout for 10 reports
RPT-03	Daily Defaulter Report	Page	§4.7.1 — extended layout + follow-up actions
RPT-M01	Log Call Outcome Modal	Modal	§4.7.1 — log call outcome
RPT-M02	Extend Grace Period Modal	Modal	§4.7.1 — extend grace period

10 reports on RPT-02 template: Revenue Summary, Commission, Salon Growth, Branch Activity, Transaction Volume, Churn & Retention, Support SLA, Discount Utilization, Plan Distribution, Geographic Performance.

4.9 User Access Control (6 pages + 2 modals)

ID	Screen Name	Type	Functional reference
USR-01	Salon Admins List	Page	§4.8.1 — tab 1
USR-02	Salon Admin Detail	Page	§4.8.1 — view/edit, reset password
USR-03	Sub-Admins List	Page	§4.8.2 — tab 2, read-only
USR-04	Sub-Admin Detail	Page	§4.8.2 — view-only, disable only
USR-05	End Users List	Page	§4.8.3 — tab 3
USR-06	End User Detail	Page	§4.8.3 — view, disable only
USR-M01	Disable User Modal	Modal	§4.8 — disable (all user types)
USR-M02	Reset Password Modal	Modal	§4.8.1 — salon admin reset

4.10 CMS & Banners (7 pages) — HIGH COMPLEXITY

ID	Screen Name	Type	Functional reference
CMS-01	CMS Pages List	Page	§4.9.1
CMS-02	Page Editor	Page	§4.9.1 — content, SEO, publish/draft/schedule, preview
CMS-03	Blog Posts List	Page	§4.9.1
CMS-04	Blog Post Editor	Page	§4.9.1
CMS-05	Media Library	Page	§4.9.1
BNR-01	In-App Banners List	Page	§4.9.2
BNR-02	Banner Create / Edit	Page	§4.9.2 — targeting rules, CTA, priority, dates

> Preview for CMS pages: on **CMS-02**. Banner preview: inline on **BNR-02** — no separate screen.

4.11 Platform Analytics (1 page)

ID	Screen Name	Type	Functional reference
ANL-01	Analytics Dashboard	Page	§4.10

4.12 Support & Ticketing (2 pages + 1 modal)

ID	Screen Name	Type	Functional reference
TKT-01	Tickets List	Page	§4.11
TKT-03	Ticket Detail	Page	§4.11 — status, assign, notes, history
TKT-M01	Create Ticket Modal	Modal	§4.11 — ticket creation fields

4.13 Master Configuration (7 pages) — HIGH COMPLEXITY

ID	Screen Name	Type	Functional reference
CFG-01	Settings Hub	Page	§4.12 — navigation to config sections
CFG-02	Reason Codes	Page	§4.12
CFG-03	Pricing Rules	Page	§4.12
CFG-04	Notification Templates	Page	§4.12
CFG-05	Tax / GST Settings	Page	§4.12
CFG-06	Feature Entitlements Matrix	Page	§4.12
CFG-07	Payment Gateway & Platform Settings	Page	§4.12 + §4.6.4 commission defaults, grace period

4.14 Audit Log (1 page)

ID	Screen Name	Type	Functional reference
AUD-01	Audit Log List	Page	§4.13 — actor, action, entity, before/after, timestamp, IP

> Show before/after detail in **expandable row** on AUD-01 — no separate detail page.

Aligned to Super-Admin-Functional-Spec.md v1.1 only. Add screens when functional spec is updated.
